### **DETAILED ACTION**

Applicant's arguments, filed 8/13/2009, with respect to the prior art rejections of claims 1 and 15 have been fully considered and are persuasive. The finality of the previous office action has been withdrawn.

### ***Allowable Subject Matter***

Claims 1-7, 9-15, and 17-21 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 1, and 15 recite the unique feature of a multi-level quantizer having at least three discrete quantization levels, each of the discrete quantization levels being represented by a set of corresponding symbols, each symbol comprises a number of one signs, the number of one signs being proportional with a magnitude of the transducer signal represented by the corresponding multi-bit sample. The closest prior art (Fujimori U.S. 6,326,912 fails to teach this feature, specifically that the multi-level quantizer is producing the corresponding symbols in such a manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
